

Department of Defense DIRECTIVE

February 24, 1996
NUMBER 4715.1

, USD(A&T)

SUBJECT: Environmental Security

- References: (a) DoD Directive 5100.50, "Protection and Enhancement of Environmental QuaMy," May 24, 1973 (hereby canceled)
- (b) Section 125 of title 10, United States Code
 - (c) DoD Directive 5134.1, "Under Secretary of Defense for Acquisition and Technology (**USD(A&T)**)," June 8, 1994
 - (d) Executive Order 12196, "Occupational Safety and Health Programs for Federal Employees," February 26, 1980
 - (e) through (m), see enclosure 1

A. PURPOSE

This Directive:

1. Replaces reference (a) and establishes policy for environmental security within the Department of Defense.

2. Establishes the following:

a. **Defense** Environmental Security Council (**DESC**); the Environment, Safety, and Occupational Health Policy Board (**ESOHPB**); and the DESC Committee structure.

b. Armed Forces Pest Management Board (**AFPMB**), consisting of the **AFPMB** Council and Committee structure, the Directorate, and the Defense Pest Management Information Analysis Center (**DPMIAC**).

B. APPLICABILITY AND SCOPE

This Directive applies to:

1. The **Office** of the Secretary of Defense (**OSD**), the **Military** Departments (including the Coast Guard when it is operating as a Military Service in the Navy), the Chairman of the Joint Chiefs of Staff, the **Unified** Combatant Commands, the Inspector General of the Department of **Defense**, the Defense Agencies, and the DoD Field Activities, including any other integral DoD organizational entity or instrumentality established to perform a governmental **function** (**hereafter** referred to collectively as "the DoD Components"). The term "Military Semites," as used **herein**, refers to the Army, the Navy, the Air Force, and the Marine Corps.

2. DoD operations, activities, and installations worldwide, including Government-owned, contractor-operated facilities.

C. DEFINITIONS

Terms used in this Directive are **defined** in enclosure 2.

D. POLICY

It is DoD policy to display environmental security leadership within DoD activities worldwide and support the national **defense** mission by:

1. Ensuring that environmental factors are integrated into DoD decision-making processes that may have an impact on the environment and are given appropriate consideration along with other relevant factors.

2. Complying with applicable United States statutes, regulations, Executive orders, binding international agreements, other legal requirements, and United States environmental, safety, occupational **health**, explosives **safety, fire** and emergency services, and pest management policies.

3. **Protecting**, preserving, and, when required, restoring and enhancing the quality of the environment.

4. Reducing risk to human health and the environment by **identifying, evaluating**, and where necessary, **remediating** contamination resulting from past DoD activities.

5. Preventing pollution and **minimizing** adverse environmental impacts.

6. Developing comprehensive safety, occupational **health**, explosives safety, fire and emergency services, and pest management programs that protect:

a. DoD **personnel** from accidental **death**, injury, or occupational illness by exposure to stressors beyond established limits.

b. DoD weapons systems, equipment, materials, and facilities from accidental **destruction**, damage, or loss.

c. The public from risk of **death**, injury, illness, or property damage as a result of **DoD** activities.

d. DoD personnel from disease vectors and DoD property from pest damage.

7. **conserving**, and restoring where necessary, the natural and cultural heritage represented on DoD installations within the United States.

8. Cooperating with and involving appropriate United States Federal, State, inter-State, Indian Nation and local officials, and public stakeholders in the implementation of environmental security programs.

9. Promoting consolidated and cost-effective environmental security **education, training,** and career development for all DoD military members and civilian employees.

10. **Developing,** demonstrating, **validating,** transferring and, as necessary, obtaining regulator certification for new environmental security technologies.

11. Making productive use of the corporate **information** management process.

12. Integrating environment, safety, occupational **health,** explosives **safety,** fire and emergency services, and integrated pest management values into DoD acquisition, procurement, maintenance, and repair processes for systems, equipment, facilities, and land.

13. Supporting international activities, consistent with national security policy, related to environmental security programs, including:

a. Consistent with available **funding,** complying with Final Governing Standards (**FGS**) issued for the host nation or, where no such FGS have been issued, the criteria in the Overseas Environmental Baseline Guidance Document and other DoD policy guidance, as applicable.

b. Complying with applicable international agreements, Status of Forces Agreements, and DoD Directives, Instructions, and policies in determining and conducting appropriate actions for response to environmental contamination caused by DoD operations that occur within the territory of a nation other than the United States.

c. Complying with requirements for environmental analysis of actions outside the United States established by applicable United States statutes, international agreements binding on the United States, Executive orders, or DoD policies.

d. Cooperating with and involving appropriate host-nation officials in the implementation of environmental security programs outside the United States, consistent with United States **defense** and foreign policy interests.

14. **Recognizing,** through an annual awards program, outstanding achievements in support of DoD environmental security programs.

E. RESPONSIBILITIES

1. The Under Secretary of Defense for Acquisition and Technology shall:

a. Provide policy and guidance, oversight, advocacy, and representation for environmental security programs.

b. Establish and publish organization and management guidance for, and provide **direction** and supervision to, the:

(1) DESC, the **ESOHPB**, and the DESC Committees.

(2) **AFPMB**, consisting of the Council and Committees, the Directorate, and the **DPMIAC**, in accordance with 10 U.S.C. 125 (**reference** (b)).

c. Develop, in consonance with the DoD Components, and promulgate environmental security goals and objectives, and approve the means of measurement of attaining those goals and objectives.

d. Develop, in consonance with the DoD Components, environmental **security** program guidance, and establish environmental security requirements and priorities for use in DoD Component environmental security **planning, programming**, and budgeting including the occupational health aspects of the Defense Health Program (**DHP**).

e. Resolve environmental security issues and disputes between the DoD Components and **non-DoD** organizations, or individuals, that cannot otherwise be resolved.

f. Designate a Military Department to serve as Executive Agent for environmental coordination in each of the ten standard Environmental Protection Agency-designated Federal regions.

g. As needed, designate DoD Executive Agents for environmental activities, including those in foreign countries.

h. Designate the Deputy Under Secretary of Defense for Environmental Security (**DUSD(ES)**) to:

(1) **Act** on behalf of the Under **Secretary** of Defense for Acquisition and Technology (**USD(A&T)**) on **all** or a portion of the environmental security-related authorities assigned in this Directive **and** DoD Directive 5134.1 (reference (c)).

(2) **Serve** as the **Principal** Staff Assistant for Defense Environmental Security Corporate Information Management.

(3) Serve as the DoD-Designated Agency Safety and Health Official in accordance with Executive Order 12196 (reference (d)).

(4) Review and take appropriate actions, no later than 1 year from the date of this Directive, to:

(a) Prepare new DoD Instructions that implement this Directive.

(b) Update or cancel references (e) through (mm).

i. Designate the Director of Defense Research and Engineering to develop a science and technology program to address the environmental security technology requirements defined by the **DUSD(ES)**.

2. The Assistant Secretary of Defense for Health Affairs, under the Under Secretary of **Defense** for Personnel and Readiness, shall:

a. Oversee the DoD Components' planning, programming and **budgeting**, and execution of the occupational **health** program within available fiscal guidance and overall DHP priorities.

b. Monitor occupational health resources to ensure that they are properly expended.

c. Inform the **DUSD(ES)** of any program execution discrepancies and include the **DUSD(ES)** in the quarterly **DHP** budget execution reviews.

3. The Heads of the DoD Components shall:

a. Implement the policies in this Directive in accordance with DoD implementing and supplementing Instructions.

b. Implement programs to achieve DoD environmental security goals and objectives, subject to the limits of their authority and responsibility, to include programs to **perform** compliance assessments on the elements of environmental security at military installations to evaluate the effectiveness of environmental management systems.

c. Reduce fatalities incurred in motor vehicle mishaps and other off-duty and recreational activities, with emphasis on the intoxicated individual, through a **coordinated** program of **education**, law enforcement, and treatment.

d. **Plan, program**, and budget for environmental security requirements, and execute environmental security programs within DoD guidance and fiscal policies.

e. Provide representatives to the:

(1) **DESC**, the ESOHPB, and the DESC Committees.

(2) **AFPMB**, consisting of the Council and Committees, the **Directorate**, and the **DPMIAC**.

f. Ensure, either through a host-tenant agreement or otherwise, that all DoD and **non-**DoD tenants are required to comply with applicable environmental security laws and regulations.

g. Negotiate, approve, and sign compliance and other types of regulatory agreements in the United States, keeping other **affected** DoD Components informed. Coordinate in advance precedent-setting agreements involving **significant** commitment of **DoD** funds. Resolve regulatory disputes within the United States in accordance with applicable procedures. Bring to the attention of the **USD(A&T)** any disputes that cannot be settled at the regional or State level.

h. Provide management **support**, resources, and a professionally qualified environmental security staff sufficient to ensure effective implementation of such programs at **all** organizational levels.

i. Delegate **all** or a portion of the environmental security-related authorities assigned to them in this Directive, as necessary.

4. The **QSD Principal Staff Assistants** shall ensure all environmental security-related matters that **affect** environmental security policies and programs are coordinated with the **USD(A&T)**.

F. **EFFECTIVE DATE**

This Directive is **effective** immediately.

John P. White
Deputy Secretary of Defense

DEFINITIONS

1. Environment. Air, water, land, man-made structures, all organisms living **therein**, the interrelationships that exist among **them**, and archeological and cultural resources.

2. Environmental Security. The environmental security program enhances readiness by **institutionalizing** the Department of Defense's environmental, **safety**, and occupational health awareness, making it an integral part of the Department's daily activities. Environmental Security is comprised of **restoration**, compliance, **conservation**, pollution **prevention**, safety, occupational **health**, explosives **safety**, fire and emergency services, pest management, environmental security technology, and international activities, which are **explained**, as follows:

a. Restoration is **identification, evaluation**, containment, treatment, and/or removal of **contamination** so that it no longer poses a threat to public health and the environment.

b. Compliance is meeting applicable statutory, Executive order, and regulatory standards for **all** environmental security **functions**, including FGS or the Overseas Environmental Baseline **Guidance** Document, as appropriate.

c. **Conservation** is planned management, use, and protection; continued benefit for present and **future** generations; and prevention of **exploitation, destruction**, and/or neglect of **natural** and cultural resources.

d. Pollution prevention is source reduction as defined in 42 U. **S.C.** 13101-13109 (reference **(nn)**), and other practices that reduce or eliminate the creation of pollutants through increased efficiency in the use of raw materials, energy, water, or other resources; or protection of natural resources by conservation.

e. Safety is a multifaceted program designed to prevent accidental loss of human and material resources; and protects the environment from the potentially damaging effects of DoD mishaps.

f. Occupational health protects **personnel** from health risks, and includes occupational **medicine**, illness and injury trend analysis, epidemiology, occupational health nursing, industrial hygiene, and radiological health.

g. Fire and emergency services enhance combat **capability** by preserving life and DoD property through **fire** suppression fire **prevention, fire** protection engineering and emergency responses.

h. Explosives **safety** protects personnel, property, and military equipment from **unnecessary** exposure to the hazards associated with DoD ammunition and explosive and protects the environment from the potentiality damaging **effects** of **DoD** ammunition **and** explosives.

DEFINITIONS, continued

i. Pest management is the prevention and control of **disease** vectors and pests that **may** adversely **affect** the DoD mission or military operations; the health and well-being of **people**; or structures, **material**, or property.

j. Environmental **security** technology consists of **research**, development, test and evaluation and regulatory certification of innovative technologies **responsive** to user needs.

k. International environmental activities include bilateral or multilateral agreements, information exchanges, cooperative agreements, and specific actions, consistent with the **responsibilities identified** in subsection E.3., above, to bring DoD resources to bear on international **military-related** environmental matters or as otherwise appropriate in support of national **defense** policy interests.

3. Stakeholders. Communities; concerned organizations; local, State and Federal government regulators; industries; and others with a stake in a healthy environment.

4. United States. The States, territories, possessions, territorial seas, and any other area under the jurisdiction of the United States.
